DETAILED ACTION

1. Applicant's 6/20/08 Amendment, which directly amended claims 23, 24 and 29, and traversed the rejection of claims in the 4/23/08 Office action, is acknowledged.

Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 24, 46, 47, 49 and 50 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The preamble of claims 24, 46, 47 and 49 recite that the object subjected to testing includes confounders. The bodies of the claims recite determining whether a confounder is present in the object. The new matter pertains to still determining the presence of a confounder where it is already known to be present.

3. Claims 24, 36-38, 40, 42, 46, 47, 49 and 50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claims 36-38, 40 and 42, the limitation "the array" in has insufficient antecedent basis in the claims.

As to claims 24, 46, 47, 49 and 50, the claims are vague, indefinite and incomplete and their metes and bounds cannot be determined because it is unclear as to why the presence of a confounder still has to be determined, where it is already known that said confounder is already present in the object to be tested.

Allowable Subject Matter

4. Claims 23, 25, 26, 29-32, 34, 41, 43, 44, and 48 are allowed.
